

Bukovanský mlýn

Welcome to Bukovany mill

Do you feel it looks here like at real flourmill a hundred years ago? Well, if you like, take a seat, smell the flowers on the window sill and drift away in well-being and peace of the old times.

The house, windmill, is a tavern where you can taste both old local and country specialties. Before you have some of our excellent dishes, try a tot of plum or apricot brandy for better taste. If you feel like wine, check our wine cellar with a vinoteque „Rotunda“ with a selection of the best Moravian wines. For children we have a playground, sitting in our back garden in the summer brings absolute tranquillity. Want some more rest? Then there is a hotel with double and three-bedded rooms with a shower, colour TV and Internet. The rooms are located either in the attic of the mill itself or picturesque huts in Moravian Slovácko style (recommended to those who are looking for perfect piece or those who snore). The windmill will show you how people lived more than a hundred years ago, there are also various art exhibitions. The mill top offers perfect views over the countryside. The common room with a fireplace is suitable for small parties with friends or your business partners. We can organize tailor-made events full of fun, good food and drinks. All of you who want to take part in some of those events should watch for news at www.bukovansky-mlyn.cz.
